The Components of Constructing Your Vision

To manifest what you Truly desire, it's important to get clear as to your wants and needs (even if it's not the whole picture; some goals are better than none). Without clarity, then you're driving without a road map and without direction and purpose. So, let's start here before going to use the Manifestation Template.

◆ **Write it in present tense and claim it 'as is' such as "I AM" or "I AM in the process of ..."**

At this time, you may not really believe what you're writing or saying, so by using the words, "I AM in the process of _____", will create an opening for you to believe it. The egoic-mind and personality Self will open up to accept and grasp it without a lot chatter of doubts, disbelief, judging, naysaying, or worry. "Fake it until you make it" so to speak. **Act like it is so, and so it is.** Call upon your SOUL-Aligned thoughts, feelings, beliefs, words, actions, and perspectives.

◆ **Be positive** i.e., write what you desire and envision by focusing on what you DO have, desire and like, not what you don't. **Eliminate words such as no, not, don't, try and even phrases such as "I want"** because it puts your vision out of reach, rather than claiming it 'as is'.

◆ **Invoke emotions so you can feel it viscerally 'as if' you're living it now;** write down how would it feel to live your vision i.e. "I feel". Write your vision as a story, versus just a grocery list.

◆ **Be specific** including timelines, amounts, etc. AND release any attachment ... these are goals so allow for a Divine Timing and Order element to assist you in achieving your fullest Potential.

◆ Plus **start the recap** of your vision in a Vision/Desire Statement with "I feel so happy and grateful that ..." **and end it** with "This or something even greater and MORE (or you could use the word Better if that resonates and aligns with you than MORE)! Thank you!"

◆ At the end of each section, add in: **Why is it so easy (or use another adjective) to manifest _____?** This gives your egoic-mind a new frame of reference point, and a new job to reframe and discover the SOUL-Aligned Possibilities and the SOUL-utions!

Create & Manifest Your ALL to Thrive & Prosper With the Universal Manifestation Template

The Universal Manifestation Template (the Manifestation Template) is a powerful tool which assists you to actualize your intentions quickly and easily with **‘what’ and ‘whom’ is a vibrational match to you.** It helps you manifest the ‘what’ and ‘whom’ is in your (and their) Highest Order, while fulfilling your Infinite Diamond (your Divine Brilliance) Potential and your SOUL’s destiny.

Why does it work? It bridges Science and Spirituality to manifest form. The Science is the Energy Forms from The Diamond Co-Creative System® which are designed from Sacred Geometry. Sacred Geometry is the construct of the Universe. Sacred Geometry is created from patterns of Universal Source energy and Divine Love. And, your original Divine Blueprint is Sacred Geometry and the Energy Codes help you to align and re-align with who you Truly are and what the Divine and your SOUL wants for you. Thus, working with the Manifestation Template which is composed of the Energy Forms is the Science that works!

The Spirituality part is asking for help ... connect with your SOUL’s Essence, the Divine, and your Spirit Guides. You have an etheric team that is here to support and guide you. You didn’t come here to do this lifetime alone.

And, it’s not just your thoughts or mindfulness to manifest what you want. Many teach that this and speaking affirmations are the only steps needed. **But, if you do not FEEL what you desire and if there are subconscious blockages and patterns,** then you will manifest something different than what you desire. This is also part of the **Science and Spirituality aspects of manifestation ... it is about energetic vibrational congruency and alignment.**

If you’re not a vibrational match with your intention, then the pattern or energetic block, belief, thought, feeling, words, and/or actions that are energetically incongruent and out-of-alignment with your fullest Potential will be brought to the forefront and into your awareness. This gives you the opportunity to recognize it and heal it, and complete your ‘old’ energetic patterns, conditioning, programming, encodings, imprints, and cycles.

When the clearings and resolutions are complete, the new vibrational alignments will match your SOUL’s Essence and Plan, which are then expressed through your personality/egoic Self. This will radiate out (‘vibed’ out) as a vibration to attract and manifest your intention and your MORE, so you can realize your **ALL ... Absolute (A)bundant Love & Ligh**t and **ALL** that is in your Highest Order.

You can use the Manifestation Template to heal, transform, create, manifest, and expand within any aspect of your life, relationships, health and well-‘BE’ing, finances, spirituality, and career or business. When you write your intention on a Template, you have now asked the Universe to advocate for and conspire with you. The Universe (the Divine and all your etheric helpers such as Spirit Guides and Angels) will help sort out and coordinate what is your MORE to manifest, so you can ‘BE’ and receive your ALL.

As you set and focus upon your intentions and visions, the Template helps to clarify what or whom may or may not be in your best interest. It propels you in directions that are in a vibrational alignment by guiding you to what and whom *is* and *is not* a match for you. **You save time, money, and energy** by realizing what is working for you and what is not, and what you want or like, and what you don’t.

And, most importantly, you realize **what brings you True happiness, fulfillment, and satisfaction** and what does not. This shows you what to focus upon, so you can **Truly prosper and thrive in your ALL ... Absolute (Abundant) Light & Love!** By being willing to *not* be attached to what the results will look like, the Universe can then help orchestrate beautiful magic to unfold in ALL parts of your life. Your intentions and desires **may certainly show up differently than you expect ...** this could be the timing, the type of results, and the MORE.

An alchemical process is activated ... it is a ripple effect whenever an intention or a symbol (such as a logo for a business, project, or program, or a picture of your ideal home, vacation, etc.), is placed in the center blank triangle of the Manifestation Template. *You can write inside or around the triangle, or attach a document to it.*

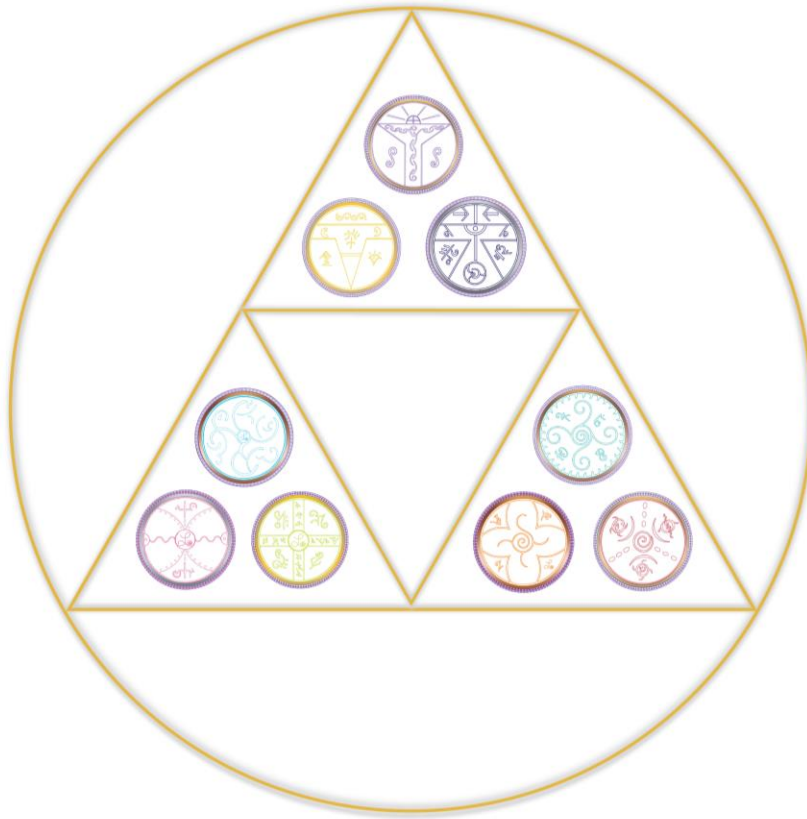

Know that only your Soul’s Essence, Divine Highest Order, and Infinite Diamond Potential for you and/or an intention, project, business, organization, or even an environment (in a space or on the planet), that is placed within the triangle, or on the Manifestation Template will be co-created and manifested. **It will assist you to Energize, Elevate, and Evolve into your ALL!**

The physical manifestation **may appear in an instant as a completed result, or gradually over time** in Divine Timing and in stages ... step-by-step and piece-by-piece. Focus on the thoughts, feelings, and beliefs that your intention is already fulfilled and so. Believe and know that the Universe has your back and best interest at heart.

Sometimes your manifestation is different than what you envisioned, including even MORE than what you ever imagined, but always (and we mean always) it’s in Divine Truth and your Highest Order. Along the way, you may discover that certain aspects of your intention (such as people, goals, and elements of your vision), are not in your best interest, **so you will refine your intention and discover what is your ALL.** The Manifestation Template assists you in **recognizing and feeling** what is Truly in your Highest Order and Infinite Diamond Potential. And if it’s in your Highest Order, then it will be in other’s Highest Order too.

This builds trust in your Self, in the process of co-creating with the Universe, and in manifesting what you Truly desire that is in TOTAL alignment with your SOUL’s Plan and Infinite Potential. It is important to continue to **keep focused and be resilient and patient.** If you get frustrated with the process, keep bringing your Self back to your intention and vision, and believe it ‘as so’ in Divine Timing and Unfoldment.

The Universal Manifestation Template from The Diamond Co-Creative System®

What is The Universal Manifestation Template? It consists of and unites the Universal Physical, Mental, and Emotional Templates of The Diamond Co-Creative System®. Each Template consists of three Energy Codes from the System, which is an ancient alchemical Sacred Geometry 12th Dimensional technology.

The Manifestation Template reveals the Philosopher’s Diamond (the Star of David) – “As Above, So Below”. The upper triangle is the Father-Mother-God energy of Spirit, while the lower triangle is the world of matter – the physical plane, form, and structure.

The Diamond is surrounded by the vibrations of Universal Templates and their Energy Codes:

Universal Physical Template (bottom right triangle) with the Foundation, Creation, and Power Codes

Universal Emotional Template (bottom left triangle) with the Compassion, Anchor, and Expression Codes

Universal Mental Template (top triangle) with the Receive, Manifest, and Connection Codes

The combination of the Universal Templates provides a collective co-creative and powerful energy to **help accelerate your awareness, healing and transformation, vibrational alignment and creation, and actual manifestation and evolution on this earth plane.**

See more information about The Diamond Co-Creative System® and its Energy Codes after page 16.

Examples & Personal Shares from Amanda

Purpose, Business & Finances

As I sorted out who am I and what I wanted to do with the rest of my life after my SOUL got me fired from the corporate world, I **placed a logo for a new business in the center of the Template**. Within six weeks, everything about it fell away. There was no energy supporting it.

It was a clear sign that this was not what I was to do. So, I refocused and birthed Co-Create Your Success. It was a True blessing and **saved me from a lot of frustration and heartache** trying to do something that wasn't in my best interest, or part of my SOUL's Purpose and Plan for being here on the planet.

I use the Manifestation Template in different aspects of my business. This includes the services and programs we provide, the type of clients we want to serve and work with, desired revenue streams and income, and attracting participants in our programs and events to fill them.

For example, I held a live retreat in January 2020 (the first since 2015) and had clients flying in to attend. I was nervous about holding a live event again with the expense and energy it took to put it on.

I was hoping for 22 or more participants; the most I ever had for a live event before was 14 people. I wrote out my intentions for the retreat and placed them in the Template and ended up with 44 registrations! I had to keep setting new intentions as I understood the Universe wanted MORE people to attend, to serve MORE, and to give me and others MORE.

Relationships & Life Changes

Here's another example of the Manifestation Template revealing the Divine Truth and Order in relationships. I was on vacation for my birthday with someone I was dating. As I do each year, I was writing **my birthday year vision. It included the kind of relationship I wanted with a Beloved**. I was not 'attached' that it would be him, but of course, I hoped. I placed my vision in the Template. Two hours later, he told me he didn't love me.

Clearly, not what I expected! But I had worked with Manifestation Templates long enough to trust the process, so I easily let him go. I was relieved that I didn't waste one more minute on that relationship and eventually married someone in 2017 who I had dated back in 1993.

However, in the summer of 2022, I was on vacation again. I was there alone because my husband could not travel due to medical reasons. Ironically, this vacation was in the same place as the above story.

I had created a Manifestation Template for my trip ... I wanted clarity as to my next steps. Looking back on it, what I meant was the next steps in my business (not personal – LOL), but the Universe had a different plan. I got clarity ... it became clear it was time to dissolve my marriage. I spent the vacation processing what was revealed.

As you can see, **sometimes, we don't get what we want, but we do get what we need.** And, we're asking for the Universe (the Divine and your Spirit Guides) to direct and guide us to what's in our Highest and fullest Potential. As you can imagine, a lot of fear and uncertainty came up ... how was I going to handle this with him, finances, who was going to move, where, when, how, etc.? But, one thing was clear it was time to move on.

I knew the first thing to do was create an intention about the dissolution such as it would be done in love, compassion, and kindness. Both of us would agree it was for the best and we would both be taken care of. I had to envision what my new life would be without him. **I created a Manifestation Template for this to be so.**

The next set of intentions was asking to become clear of whether I wanted to stay in our current home which was awesome (it would have been easy to be complacent to do so), or to move. And, if I was to move then where? Did I stay in the San Francisco Bay area or elsewhere? What type of home did I want, who did I want around me, and would it support me in terms of feeling happy, safe, and nurtured? These were really important to me.

And, last but not least, how was I going to handle this financially? At that time, I did not have the means in the bank necessary to move into a new place, or to a new area. Dissolving my marriage and moving was not in the plan. I had some ideas, but I knew I needed help ... **help from the Universe to orchestrate all of this and to advocate for me as I went through the process of changing my life.**

Thus, I placed the intentions in a Universal Manifestation Template from The Diamond Co-Creative System®. As I did so, **I gave it over to the Universe (the Divine or however you term that for your Self).** I began to embody and feel that it was all was already done. Then, I followed the guidance along the way and took SOUL-Inspired action. I followed the energy. Within less than two months, I found my new place in Orange County, CA and moved sooner than I thought. All of what I needed, including the money flowed in easily and I felt totally supported by the Universe.

Where I made a mistake in not doing a Template around the actual move and movers ... it was the only glitch in the flow of moving. A big lesson learned! **Add to or create a Template for each major component of your vision!**

Now, I'm not going to say I didn't have my doubts, worries, or fears at times. It's part of the journey. I continued to do the work around aligning my vibrations to match my vision. This included doing the healing within me to clear and transform any old patterns, thoughts, feelings, or beliefs that got in the way and were incongruent with what I desired. I remained open to receive and kept connected to the Divine and my Spirit Guides.

And, this is key ... allow the Universe to give you even MORE than what you can imagine which I did!

You can have several Manifestation Templates going at the same time; you will refine them along the way.

Here are some ideas. Create one for your ...

- ◆ Ideal Life, Lifestyle & Flow
- ◆ Personal Growth & Spirituality
- ◆ Physical Body Health & Emotional/Mental Well-Being
- ◆ Relationships - Beloved, Personal & Professional
- ◆ Money, Finances & Prosperity
- ◆ Career, Business, or Contribution to the World & Others

Amanda's wish is that you prosper and thrive in ALL aspects of your life, health and well-'BE'-ing, spirituality, relationships, money, and career or business! Go beyond what you know and experienced thus far.

Writing Your Intention & Placing It Within The Universal Manifestation Template

Sit with your Self in a quiet space and tap into what you Truly desire and need. Begin to formulate your intention(s) for different aspects of your life, relationships, health and well-‘BE’-ing, spirituality, finances, and career or business. Write your intention(s) within the center triangle, or anywhere on the Manifestation Template. Use one Template for each specific area of your life, or as an overall intention.

A great time to do this is ... (1) if you are seeking a specific change or goal throughout the year, or (2) during each New Moon, or (3) before or as your Birthday year begins – create a Vision for your Birthday year.

Write your intention ‘as if’ it is already manifested. “Claim it” using positive statements and eliminate the use of: no, not, or don’t. Claim it as “I AM” or “I have”. Do not use “I want” because this actually keeps your manifestation at bay.

Plus, you can place a logo or picture in the center triangle. Or, if you have written out an ideal description of a relationship, business, or vision, and it can’t fit it on the Template ... attach it to Template, and then in the middle of the Template, write the below:

Begin the intention with “I’m so happy and grateful that _____ has manifested.”

At the end of the intention, write: “Thank you. This or something even MORE (or Better)! And so it is!”
You want to do so with any intention that you write on the Template too.

You can download the Template as a PDF, so you can print out multiple Templates and write on each one for various aspects of your life, and for different purposes or goals. Or, you can use the Word document with the Template, so you can type in text and put in a picture or logo in it ... see the example provided.

NOTE: Your result may not look like what you expected, or believed that it ‘should’ be, because your SOUL’s Essence and the Universe knows your Highest Order and Infinite Diamond Potential. Be open to receive, and don’t be surprised if the manifestation is even beyond what you envisioned ... this is your ALL!

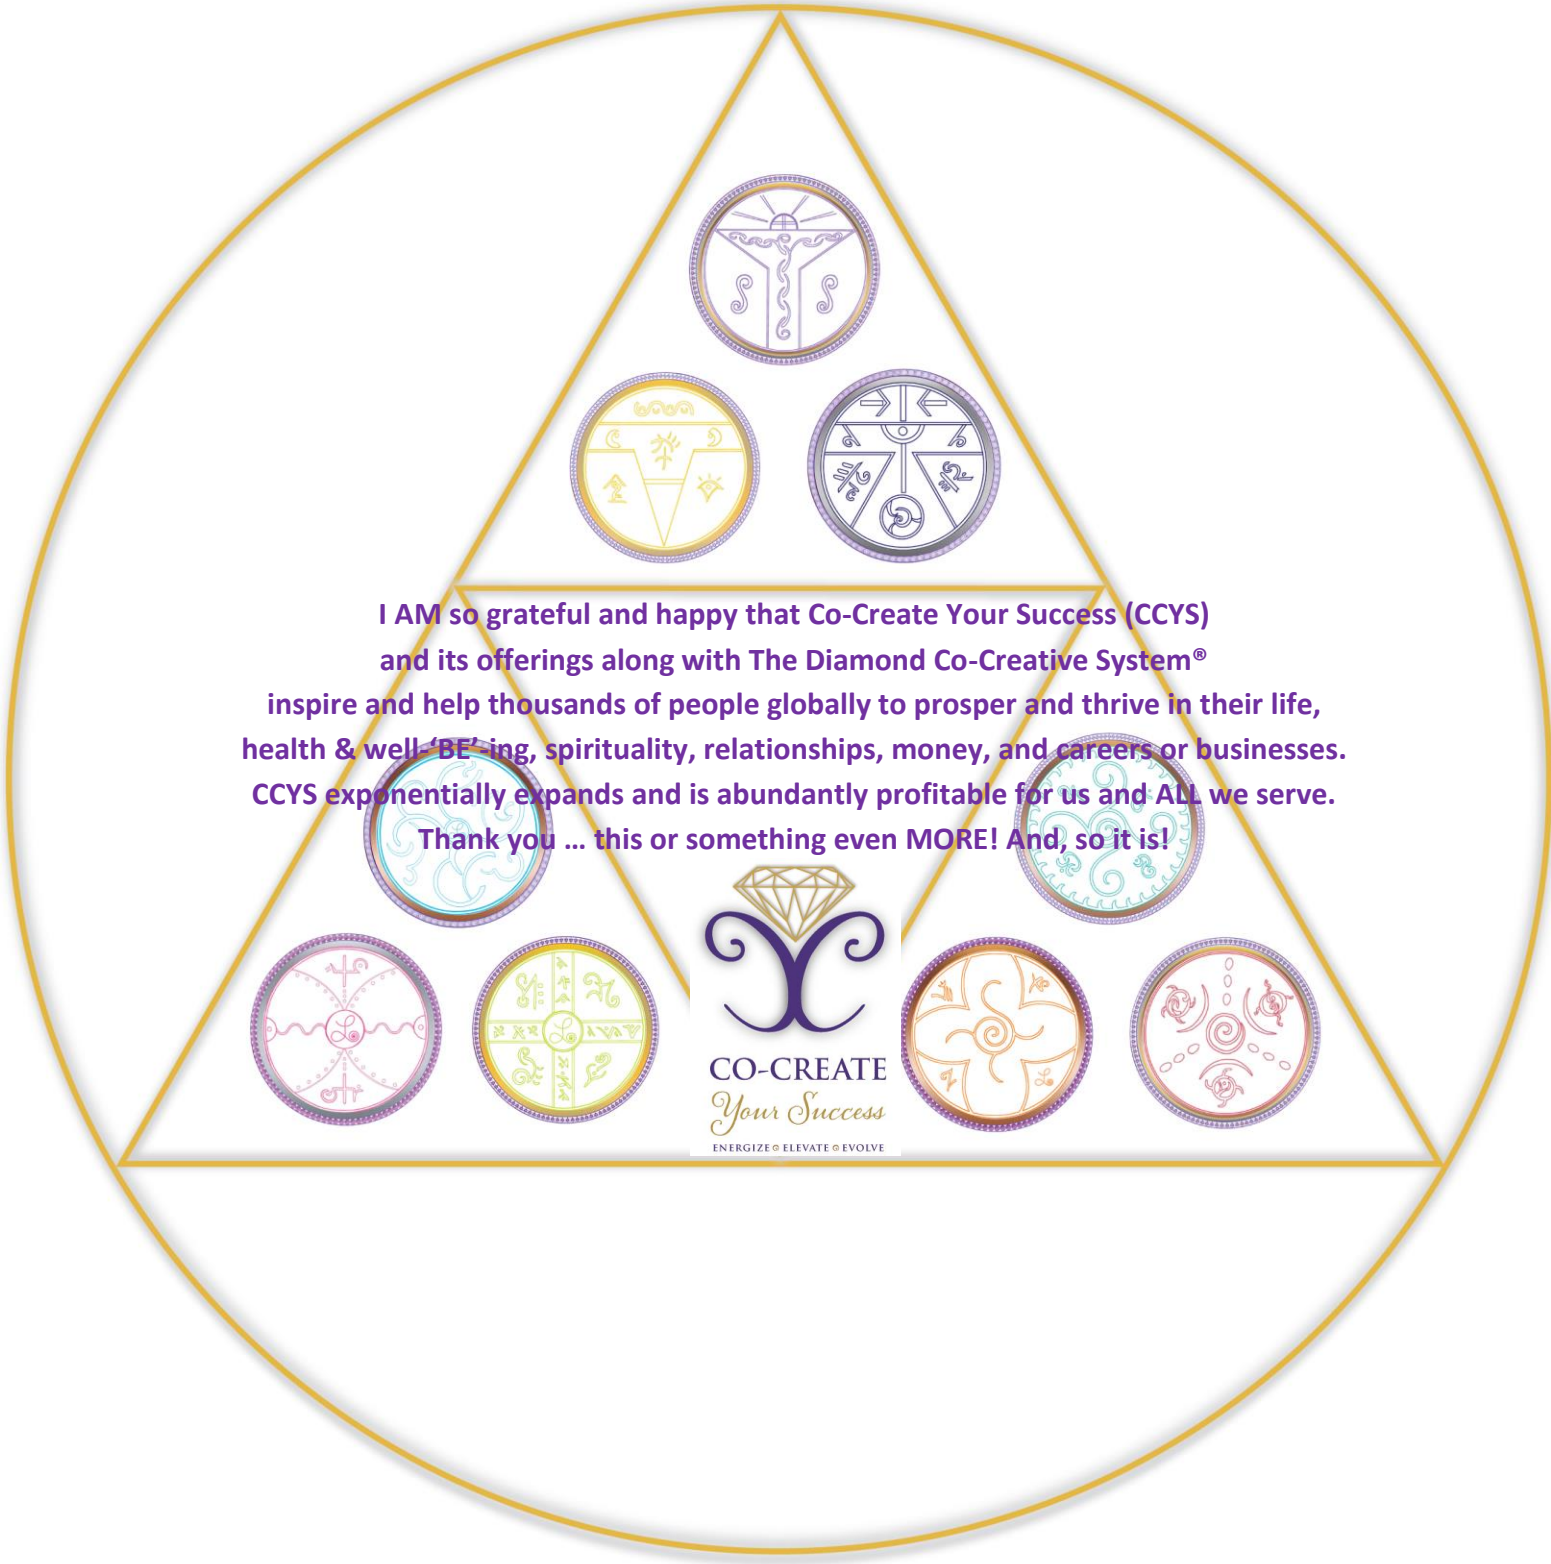

HINT: DO NOT put anything in the center triangle ...

1. If you want to stay where you are.
2. If you have the need to know, or to be right.
3. If you have the need to control the process.
4. If you are not open to change and success.

The System will stretch you beyond what you know today, and it will also open doorways just for you.

Have fun in your co-creation with the Universe to Manifest Your ALL!

THE EVOLUTION OF THE SYSTEM

The Diamond Co-Creative System® (the System) was developed in Atlantis by Amanda Slade & a team of Divine Beings. The System reemerged when she downloaded it back onto the planet in 2001. Originally, there were nine Universal Energy Codes. Over the years, they have cleansed, upgraded & protected, so they cannot be manipulated or misused for ill will.

The upgrades include: the redesign of the Universal 'L' in several of the Codes, the Power Energy Code with a new component & the addition of the Design & Metallic Bands around the Codes to bring them into Higher vibrations.

In 2015, the System called forth for an expansion & added four new Energy Codes, which are called the **Cosmic Energy Codes** ... Grace, Gratitude, Grounded & Wisdom. With these, there are thirteen Codes & together they create the Cosmic Unification Template.

In 2020, the System sought simpler and easier ways for you to utilize and 'play' with it. This is the year the **Elevation Codes & Ascension Codes** were designed.

The Unification Council of 12

The Unification Council of 12 also presented themselves in 2020 to assist with your Ascension Journey. The Ascension Principles with Four Facets & Codes are sourced from the teachings of the Unification Council to help you to persevere in your Ascension process with your commitment, dedication & discipline. These teachings raise your awareness & consciousness, so you can easily embrace the evolution of your journey. They provide practical applications with a spiritual foundation.

The 12th Dimension

The 12th Dimension technology of the System opens the doorway for Oneness & Unity with the Divine Cell Consciousness of the Energy Codes. The 12th Dimension is where 'All is One'. When you tap into the 12th Dimension, you can no longer sustain any kind of separation due to its vibrations of Unity Consciousness & Oneness.

The Codes, along with the techniques of the System, help you to align with your original Sacred Geometry of Pure Love & the Infinite, so you can thrive & prosper this lifetime. You can experience immediate & sustainable healings, transformations & expansion!

Create & Live Into Your ALL!

Become Your Diamond Brilliance

WAYS TO UTILIZE THE SYSTEM

The Diamond Co-Creative System® consists of 13 individual Energy Codes. The System continues to evolve, as does the Universe, as do YOU! It seeks simpler and easier ways to be utilized to manifest even more powerful, transformative results. It does so by grouping Energy Codes together in different combinations & configurations (see below).

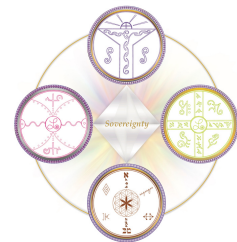

Elevation Code

Template

Ascension Code

PLAY WITH THE CODES

You can get to know the Codes by playing with them. Each Code holds a different vibration with its own qualities & purpose. The Code's name offers a clue as to what it can do for you. Know that there is no 'right' or 'wrong' way to interact with the Codes. The System is protected & can do no harm. You can color them, lay them upon you for healing & alignment, meditate with them (as described below), or even frame them as artwork to vibrate within your environment.

Relax & Breathe

Simply call upon the Codes by name & ask them to Activate. Remember, the Code has a Divine-Cell Consciousness, so you do not need to control it, nor even understand what it is doing. The Code will only help manifest what is in your Highest Order. Relax & breathe into your meditation.

With Your Mind & Heart

State your intention for utilizing the Code(s) or Template. This includes what you desire to clear & cleanse plus what you want to create & manifest. The Code(s) or Template will assist you to transmute energies which are vibrationally incongruent with your intention & helps you to align with your Highest Order & Infinite Diamond Potential!

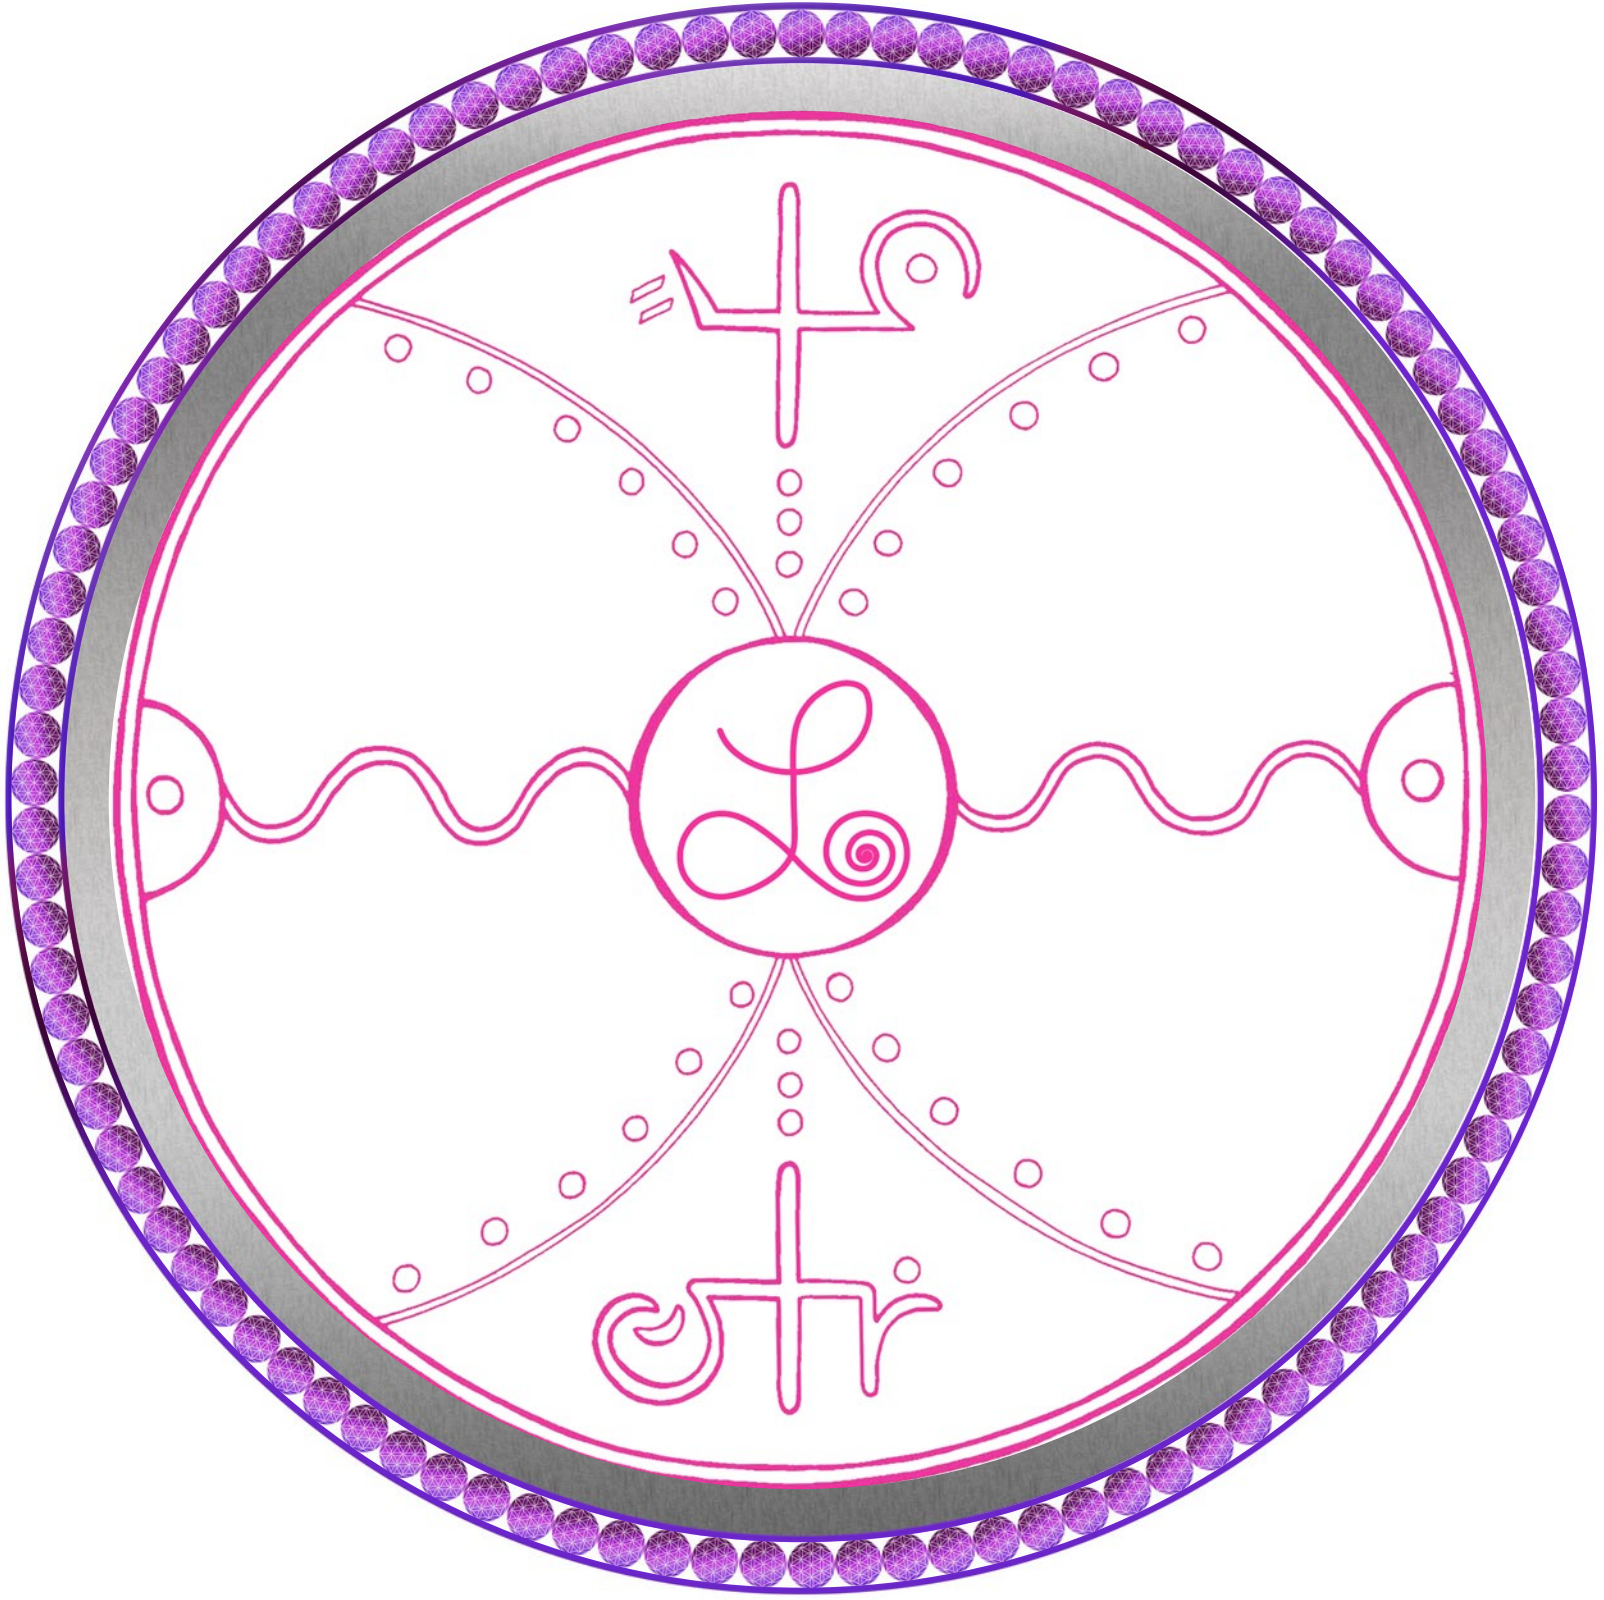

Imagine

Envision or imagine the Code(s) as a hologram around you (like a bubble that you sit or stand within). As you Activate the Code(s), it will begin a counter-clockwise spin to clear & cleanse your Chakras, Energy Bodies & Energetic Matrix. It will know when to shift & spin clockwise to help you create 'energetic' space & alignment to integrate the energies of the Code(s) & the intention that you have focused upon.
